-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1742

1. The Examiner has carefully considered Applicant's Response of 11/7/05. The Examiner finds that the additional limitation to independent claim 3 frees the claims of the prior art. At this time, the Examiner makes a new rejection based on USC 112, directed to matter that was present prior to the prior Action. Additionally, the Examiner makes a new rejection directed to claim 11. This Action accordingly not made final.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 11 is rejected under 35 U.S.C. 102(b) as being anticipated by Gingerich et al. '240.

Gingerich et al. '240 discloses at col. 5 line 52 to col. 6, line 4, a method of forming cobalt comprising:

providing a cobalt hydrate material;

heating said cobalt hydrate material at a temperature of 350oC to 600oC to form cobalt.

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 3-4 and 6-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The limitation of the term "cobalt" as found in claim 1 is unclear. It appears from the disclosure as originally filed that the term is directed to only solid cobalt and would not perform with cobalt in any other valence.

6. Claims 9 and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 9 is not linked to claim 3. It appears that the first adjusting step of claim 9 occurs after the separating step of claim 3.

7. Claims 3-4 and 6-10 are free of the prior art. The Examiner finding that the prior art does not teach or suggest the contact of the aqueous solution with solid cobalt in the presence of an injected inert gas.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel J. Jenkins whose telephone number is 571-272-1242. The examiner can normally be reached on M-TH6:30AM-5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Roy King can be reached on 571-272-1242. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
